

## Contents Volume 154 (2003)

### Research Papers

Grain fabric of experimental gravity flow deposits T. Sakai, M. Yokokawa, Y. Kubo, N. Endo and F. Masuda . . . . .	1
Quantifying the geometry and sediment fabric of linear slopes: examples from the Tertiary of Italy (Southern Alps and Gargano Promontory) E.W. Adams, M. Morsilli, W. Schlager, L. Keim and T. van Hoek . . . . .	11
Late Frasnian sedimentation cycles in the Appalachian basin—possible evidence for high frequency eustatic sea-level changes J.K. Filer . . . . .	31
Characteristics, stratigraphic architecture, and time framework of multi-order mixed siliciclastic and carbonate depositional sequences, outcropping Cisco Group (Late Pennsylvanian and Early Permian), Eastern Shelf, north-central Texas, USA W. Yang and M.A. Kominz . . . . .	53
Syn depositional deformation of the Permian Capitan reef carbonate platform, Guadalupe Mountains, New Mexico, USA D.W. Hunt, W.M. Fitchen and E. Kosa . . . . .	89
Bajada formation by monsoonal erosion of a subaerial forebulge, Sultanate of Oman D.W. Rodgers and A. Gunatilaka . . . . .	127
Neogene non-tropical carbonate sedimentation in a warm temperate biogeographic province (Rethymnon Formation, Eastern Crete, Greece) F. Pomoni-Papaioannou, H. Drinia and M.D. Dermizakis . . . . .	147
Compositional variations in manganese carbonate micronodules from the Lower Proterozoic Nsuta deposit, Ghana: product of authigenic precipitation or post-formational diagenesis? F.K. Nyame, N.J. Beukes, K. Kase and M. Yamamoto . . . . .	159
Deep-burial diagenesis of the siliciclastic Ordovician Natal Group, South Africa K.W. Liu . . . . .	177
<i>Corrigenda and Errata</i>	
Corrigendum to "Controls on facies and sequence stratigraphy of an upper Miocene carbonate ramp and platform" [Sediment. Geol. 146 (2002) 285–304] K.J. Cunningham and L.S. Collins . . . . .	191
Corrigendum to "Hydrothermal dolomite—a product of poor definition and imagination" [Sediment. Geol. 152 (2002) 163–171] H.G. Machel and J. Lonnee . . . . .	193
Erratum to: "Early diagenesis in an organic-rich turbidite and pelagic clay sequence from the Cape Verde Abyssal Plain, NE Atlantic: magnetic and geochemical signals" [Sediment. Geol. 143 (2001) 91–123] S.G. Robinson . . . . .	195
<i>Author Index Volume 154 (2003)</i> . . . . .	197
<i>Contents Volume 154 (2003)</i> . . . . .	199
